

TIJARAH HOLDING LTD

Building the Web3 Infrastructure for Governments and Industries

ABOUT US

Tijarah Holding Ltd., is a pioneer Islamic Digital Asset Service Provider. We empower developers, startups, enterprises, and governments with blockchain solutions built on the Maal Blockchain. We champion impactful projects, promote academic adoption, and address compliance concerns through MaalChain's unique features, making blockchain accessible for the Islamic community and beyond.

OUR MISSION

MaalChain Ecosystem

Maal Blockchain was founded to create a secure ecosystem that complies with Sharia law and is tailored for government and industry use.

Empowering Blockchain

We create blockchain solutions to optimize financial technology with streamlined processes, enhanced security, and new possibilities.

Investing in High-Impact Ideas

We invest in innovative projects built on Maal Blockchain prioritizing trust, credibility, verifiable results, and driving positive change in the decentralized space.

OUR SERVICE

Islamic Digital Asset Service provider (IDASP)

We provide secure platforms for the issuance, trading, and management of Sharia-compliant digital assets on the Maal Blockchain.

Smart Contract Development & Framework

We create secure, Sharia-compliant smart contracts for transparent financial transactions on the Maal blockchain.

Blockchain Technology Solutions

Our team of experts crafts bespoke blockchain solutions tailored to the unique needs of Islamic financial institutions.

Smart Contract Audits & Security

We ensure the robustness and security of your smart contracts through rigorous audits and cutting-edge security protocols.

TIJARAH ONGOING PROJECT

CBDC Retail & Bond Issuance

Bank Negara Malaysia is exploring a pilot project with Maal for a bond issuance of MYR 100 million to expand beyond the current wholesale bond market.

Subsidy Petrol

MaalChain's concept of identity technology helps governments accurately identify deserving recipients based on their net disposable income and qualifications. This ensures efficient and fair distribution of petrol subsidies while saving government billions of dollar.

Mudharib Talent Development Program (NADHLATUL ULAMA)

- MaalChain aims to engage 5 million users to develop NFTs showcasing arts and traditions on PanSea.
- MaalChain also created an educational grant to train 1,000 participants in trainer training programs.

Blockchain Island

Finalising a blockchain island that facilitates trade and economic growth. It offers fintech services, digital settlements, banking, anchorage areas, and e-residence, positioning itself as a premier hub of innovation and economic growth in the digital space.

Learning Management System (LMS)

Maal Data Lab identifies, invests, and empowers viable blockchain entrepreneurs, startups, and communities.

We offer Technical and Vocational Education and Training (TVET) programs in LMS to develop the local talent in Malaysia and abroad.

Carbon Credit

MaalChain is a secure platform for issuing and retiring carbon credits. It offers high-quality offsets, global investment opportunities, and measurable impact. MaalChain uses blockchain technology to ensure the immutability and security of carbon credits.

OUR TECH PARTNERS

OUR ACADEMIC PARTNERS

Join the **MAAL ecosystem** now to gain from its impressive **US\$4.4 billion** fully diluted valuation.

NCVC Valuation confirms that joining the ecosystem could result in a **fair value of US\$0.44 FDV**, meeting **Islamic Digital Asset Classification Standards**.
